

## **Alaska PTA: Help Our World Forward!**

**Our Elders  
Who will take care of them?**

**The road is long and difficult, but the fight goes on. They have given us so much when they were young it is hard to see our loved ones age before our very eyes. It is harder still to see ourselves age as we look into the mirror.**

**Yet who will be ready to help those of us who will need a little extra care in the coming years? Let us make sure our children have been educated to know how to handle the inevitable. Please give to ALASKA PTA the group who continues to advocate for educational excellence for all children, since 1957.**

**Contact your key worker today about this charity.**
