Alaska PTA Program Recognition provides the opportunity for PTA/PTSA's to share their favorite and most successful ideas, projects and activities. All program/activity descriptions will be distributed at our annual convention. In addition, PTA/PTSA's who apply for program recognition may be asked to share their projects with other units as time and space allow at the Alaska PTA Convention, April in Anchorage.

Use this form as a cover sheet for the project/activity description. Please limit your description to two pages. Be sure to answer the questions listed below. You may also wish to attach supplementary materials such as photos, fliers, and other information, which may be of interest.

Please be specific enough that someone who has no previous knowledge of the program could understand well enough to begin such a program at another school. Your project/activity description may be used to compile the Programs Publication for Convention.
